

OUTSOURCE & DIGITIZE your IHC & ISH staining

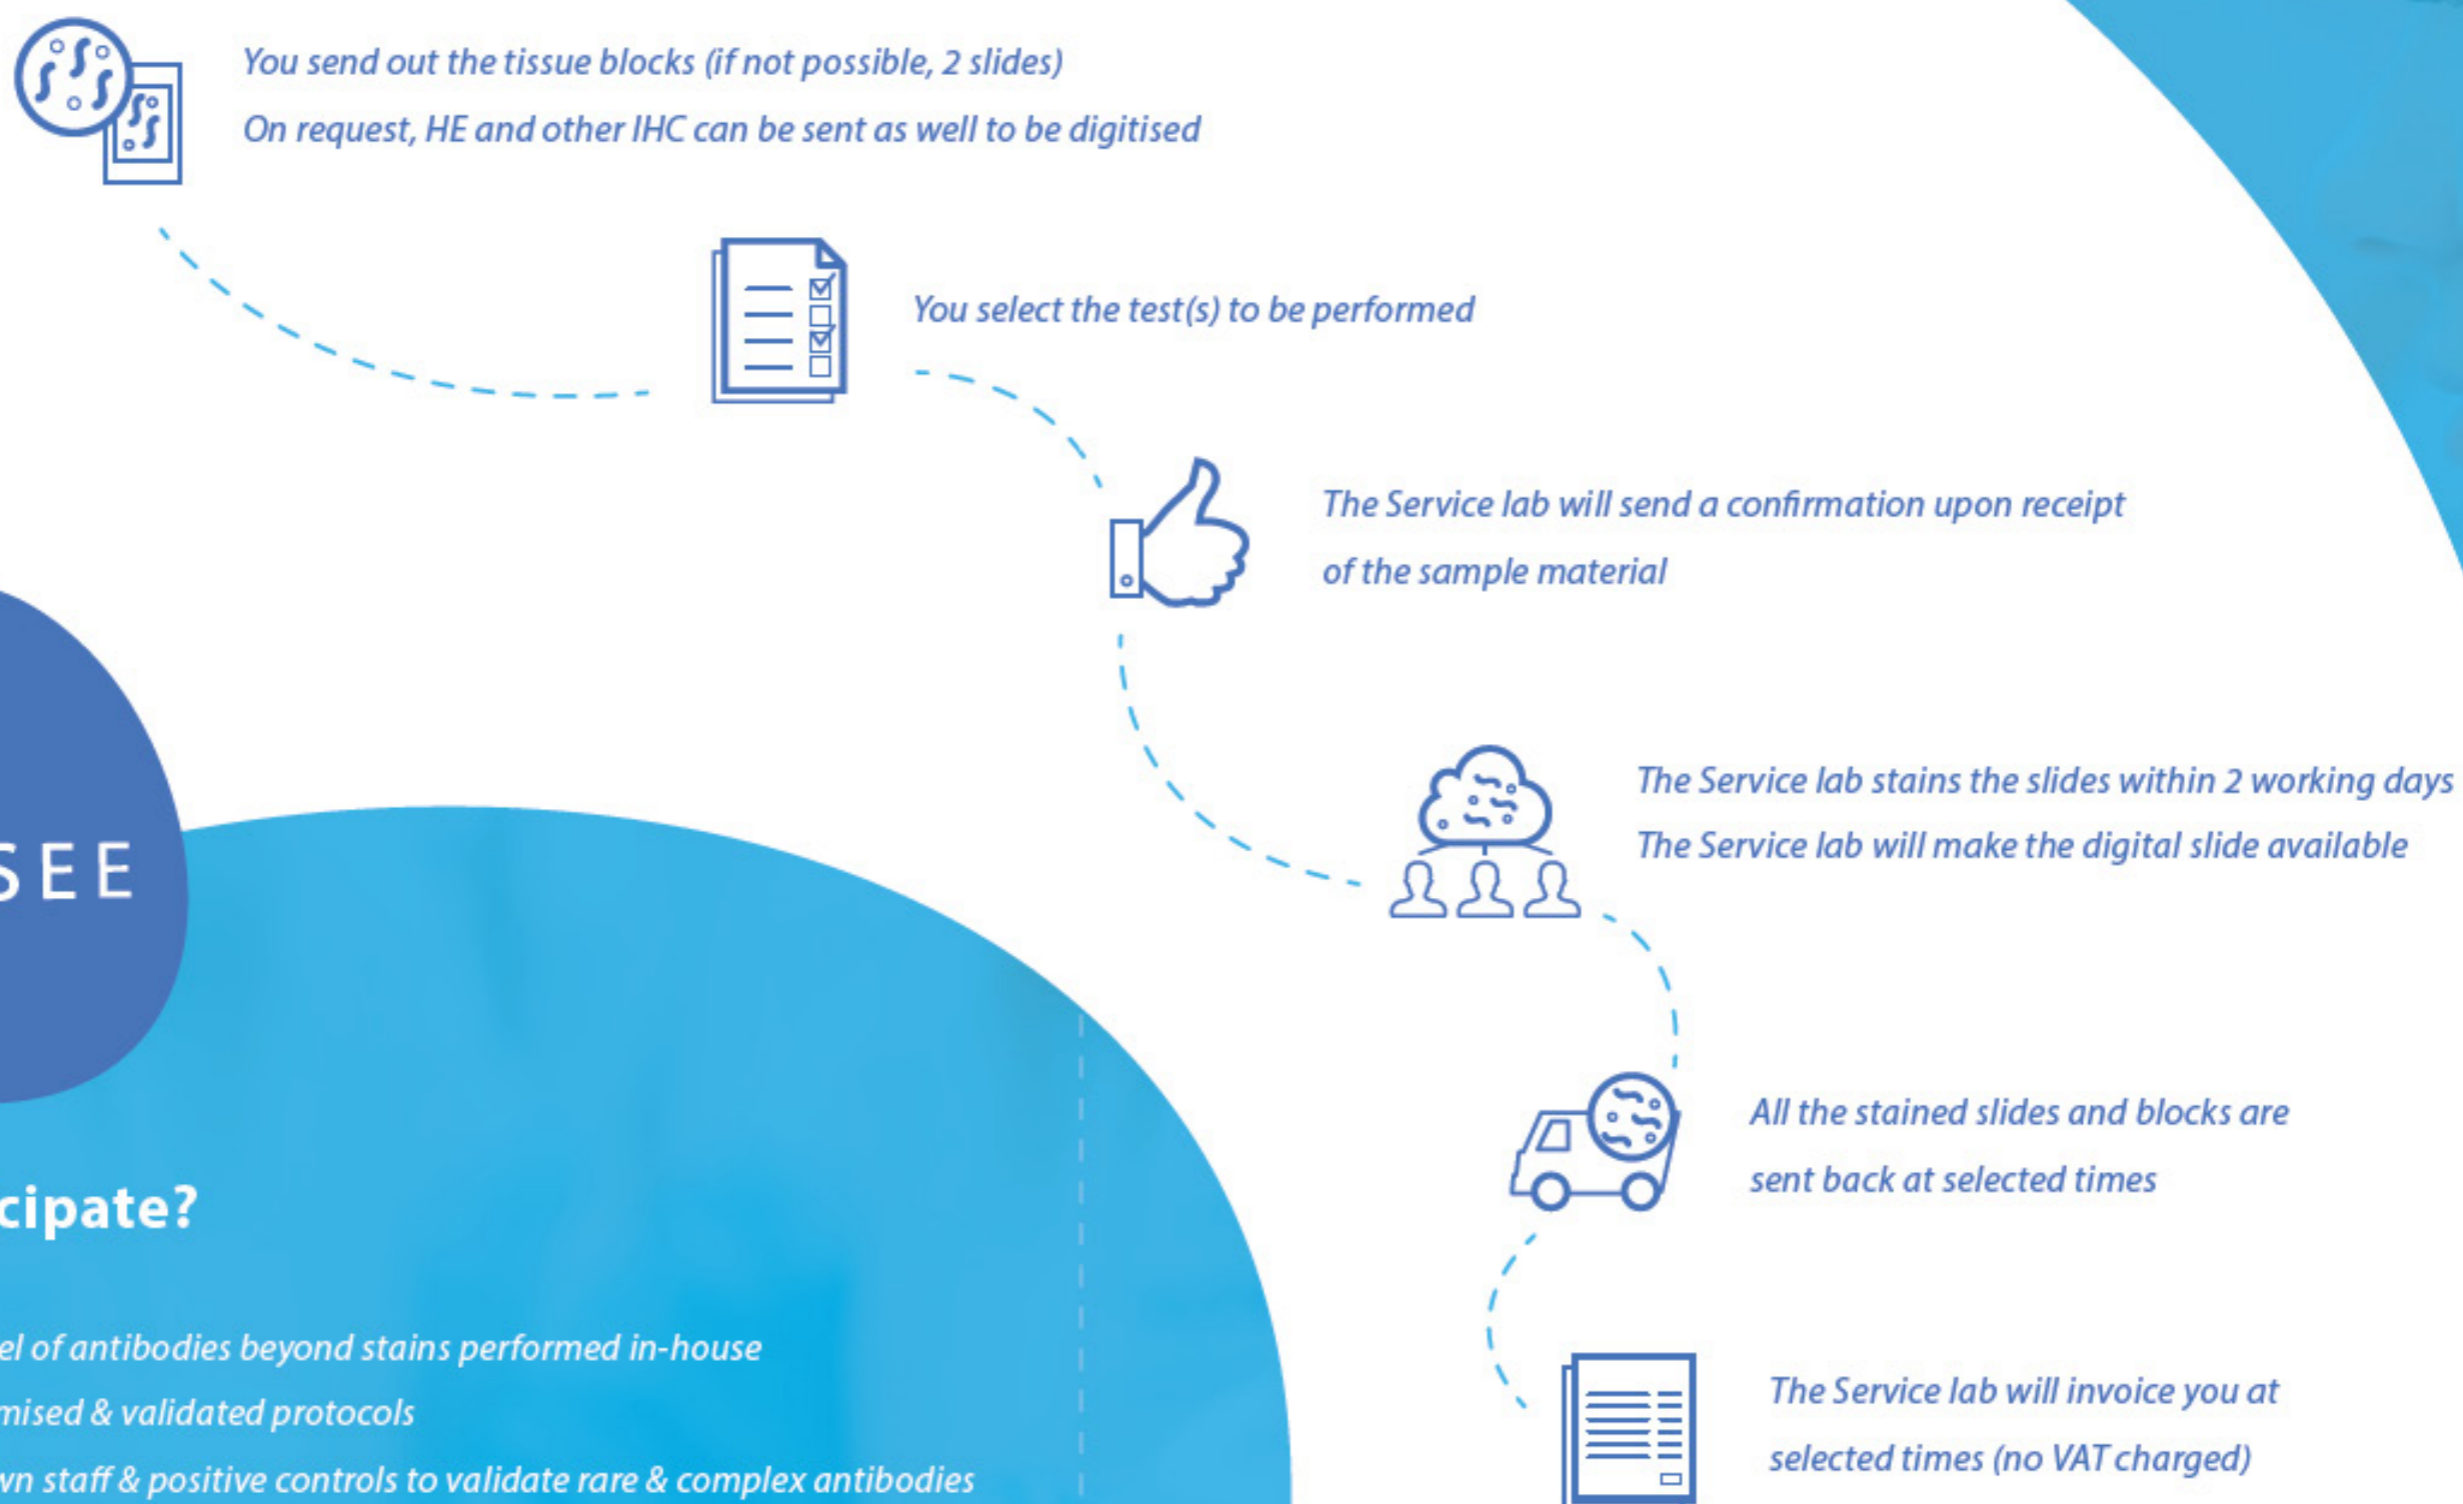

PROJECT
ODYSSEE

What is Project Odyssee?

A service lab that can help you save cost & time:

- *Outsource your rare & complex staining requests.*
- *Avoid time-consuming in-house validation.*
- *Receive physical & digital stained slides ready for diagnosis.*

HOW DOES IT WORK?

PROJECT
ODYSSEE

Why participate?

- Enlarge your panel of antibodies beyond stains performed in-house
- Benefit from optimised & validated protocols
- No need to use own staff & positive controls to validate rare & complex antibodies
- Your lab stays in control of the diagnosis & claiming the reimbursement for the IHC stained slides

COST-EFFECTIVE

Total service & validation cost < reimbursement level

EASY

Send FFPE Tissue sample, select test(s), receive stained slides. Done.

FAST

Your stained slide available as digital scan within 2 working days*

PIONEERING

Facilitate 2nd opinions & the use of CE-IVD digital image analysis (algorithms for ER, PR, HER2, Ki67, p53)

**Standard conditions*
